## SUMMARY

I am looking for a junior QA Engineer position or an internship that will allow me to apply my practical and theoretical knowledge in IT sphere. At my previous job along with other responsibilities I was involved in software development projects which inspired me to enter the IT world, QA in particular.

I am cooperative and meticulous, which in combination with knowledge and tech skills received during the past couple of months, will allow me to achieve success in QA sphere. I am strongly committed to any project I am involved with. Being a reliable person and a good team-player I can be a great contribution to your team.
